

AF Series Cartridges Calcor Neutralization

Aries FilterWorks Calcor neutralization cartridges are designed with a proprietary blend of self-sacrificing minerals that will neutralize the weak acids of low pH influents. These Aries cartridges can be used to polish RO effluents and mineralize the product stream back to a balanced and healthy pH. These cartridges will lessen the aggressive tendencies of low pH streams and their ability to leach metals from plumbing systems.

Series Overview:

AF Series cartridges are double-open end cartridges that fit standard residential and industrial housings. Cartridges are available in 2-1/2" and 4-1/2" diameters and 5", 10" and 20" lengths. Using premium ResinTech media and offering oversized cartridge cavities, AF Series cartridges provide the best in water purification and filtration.

Applications:

pH Control – Reduction of weak acids from water streams.

CORROSION – Reduction of a water's tendency to leach metals from a plumbing system.

Mineralization – Can add minerals back into an RO product stream.

Features and Benefits:

- Aries FilterWorks Proprietary blend
- Oversized Body for Maximum Media Fill
- Ultrasonic Welding
- Lot Traceability
- Body Material FDA Approved
- Made In USA

Part Number	Size	Description	Capacity	Service Flow	Peak Flow
AF-10-3232	2.5"x 10"	100 % Calcor	2,000 Gallons	0.50 GPM	1.0 GPM
AF-20-3232	2.5"x 20"	100% Calcor	4,000 Gallons	1.0 GPM	2.0 GPM
AF-10-3232-BB	4.5"x 10"	100% Calcor	4,500 Gallons	1.5 GPM	3.0 GPM
AF-20-3232-BB	4.5"x 20"	100% Calcor	11,000 Gallons	3.0 GPM	5.0 GPM

Note: Dissolution Rate is a product of water temperature, flow rate, pressure and water chemistry.
