There’s no better tank choice for water treatment than the Pentair® Wellmate® UT Series. Composite construction makes the entire line impervious to the chemicals found in aggressive water.

**FEATURES/BENEFITS**

- Inlet/Outlet PVC Pipe Connections – allow straight through T connection on bottom of tank for ease of piping
- Blowdown Valve – for easy removal of sludge from bottom of tank
- Hydropneumatic Convertible – optional air volume control assembly and micronizer allow for quick and easy tank conversion
- Standard 1” ID / 1.25” Quick Connect Socket
- One piece, seamless inner shell molded of premium, high-density polyethylene which provides impact and corrosion resistance
- Miles of fiberglass filament covered with epoxy resin produce superior strength in a light-weight design
- Additional drain port
- Curved bottom dome design maximizes contact time and facilitates sludge removal
- 1.25” socket inlet/outlet PVC pipe connections offer maximum application flexibility

**APPLICATIONS**

- Contact Tank for Water Treatment
- Hydropneumatic
