# Welcome to The Definitive Guide for Well Water Treatment!

Our company **Clean Water Systems & Stores** has been providing solutions for thousands of problem water wells since 1985. Over the years, we have been asked the same questions by homeowners, contractors, and well specialists dealing with challenging water problems: “How can I determine which treatment solution is best for my problem?”

**We created this Guide to answer these questions in a simple format.**

Questions answered include:

- How do I know if I need water treatment? Where do I start?
- How can I know if I am getting the best solution for the lowest cost?
- Which type of system should I buy for my water problem?
- Is it possible to get a filter or treatment system and install it myself?
- When should I hire a professional to do the installation and maintenance?
- Is it possible to maintain it myself or do I need special training?

## **How to Use This Guide:**

See the **Table of Contents** and browse to find a problem or type of issue that you are interested in. We have included many tables and charts to help you identify the type and cause of your water quality problems. At the end of the Guide, you will see additional information on how your well works, plus various technical data and a comprehensive glossary.

27.2. Causes of Sediment, Gasses, Odors	106
<b>28. How Your Well Works</b>	<b>107</b>
28.1. Typical Well Water System Components	109
28.2. Storage Tanks	110
28.3. Cisterns	111
<b>29. Glossary of Terms</b>	<b>112</b>
<b>30. Additional Resources and Links</b>	<b>131</b>

# Well Water Treatment Cheat Sheet and Check List

Avoid common well water problems by following this Check List.

## DO THE BASICS

- Test Water Chemistry
- Check Well Water Flow Rate
- Check for Odors
- Perform Toilet Flush Tank Check
- Water Heater Flush Check
- Check for Pipe Corrosion
- Determine Diameter of Pipe

## INSTALLATION

- Buy direct and install yourself OR
- Buy direct and hire a plumber OR
- Buy from water treatment dealer
- Follow a checklist of best practices

## ENJOY HEALTHFUL HIGH-QUALITY WATER

- Water meets Health Dept Standards
- Great tasting, good for cooking
- No odor, stains, or sediment
- Non-corrosive to pipes and fixtures
- Free of bacteria, viruses or parasites
- High quality water for bathing and laundry

## DECIDE ON GOALS

- Treat water for one sink for drinking and/or
- Treat water for the entire home?
- Eliminate corrosion problems?
- Remove stains, sediment, odor?
- Improve water pressure?
- Disinfect water of bacteria?

## QUALITY CONTROL

- Set up maintenance schedule
- Test well water annually for bacteria and nitrate
- Test treated water regularly and keep records
