

# Commercial High-Efficiency Metered Flow Softeners 7500C Series

[www.cleanwaterstore.com](http://www.cleanwaterstore.com)  
Clean Water Made Easy.

High Performance - High Flow - High Salt Efficiency

Counts Gallons or Liters - Regenerates Only When Needed

Higher Flow Rates and Lower Salt Usage

## Features

- High performance WQA/NSF Certified Softening Resin 8% Crosslink
- High flow rate reliable control valve with 2" inlet-outlet
- Built-in Flow Sensor meters the amount of water used, and only regenerates softener after preset number of gallons have flowed through system.
- NSF certified heavy-duty polyglass filter tank for many years of reliable operation.
- Large capacity brine tank 24" x 40" holds 350 lbs of salt.

210K Grain 50 GPM  
7500-C Control Valve  
Pipe size: 2" Inlet-Outlet  
Voltage: 120-220v 50/60hz.
